Hundreds of Scientific Reports Confirm Antimicrobial Action of Essential Oils in Thieves Blend

“In recent years (1987–2001) a large number of essential oils and their constituents have been investigated for their antimicrobial properties...in more than **500** reports.

Essential oils of spices and herbs (Thyme, Oregano, Mint, Cinnamon, Sage and Clove) were found to possess the strongest antimicrobial properties among the many tested.”

Make a Clean Sweep this Fall with the Thieves Family of Products

If you've got a date with a dust mop this fall, now's the time to try Young Living's powerful, all-natural household cleaners. Since Gary Young unveiled the **Thieves Family of Products** just a year ago, the testimonials have been pouring in from delighted customers. Not only are Thieves cleaners chemical-free, they sanitize your home with the germ-busting action of Thieves essential oil blend.

If Thieves is news to you, it is a potent blend of several therapeutic-grade essential oils, including **Cinnamon, Clove** and **Rosemary**. Each of these oils is a proven antiviral and antibacterial agent. Yet, Thieves' luscious, spicy fragrance leaves a barely-there scent, making these products a pleasure to use.

You may have learned, as we have, to expect only the best from Young Living. Even so, Thieves Household Cleaner exceeded our expectations for cleaning performance and versatility:

I've been using the New Thieves Oil Household Cleaner & absolutely love it & the clean smell it gives the house. I've been using it in the bathroom, on tiles, in the kitchen - even as a "vegetable spray."
Alicia W.

I use Thieves cleaner on my hardwood floors, and they are amazingly clean and shiny when I'm done. I also use the Thieves cleaner in my carpet shampooer. The carpets (white!) get really, really clean, and the whole house has this subtle very clean smell. It's just wonderful.
Vicki O.

Overwhelmingly, customers are enthusiastic about replacing chemical-laden cleaning products in favor of Thieves Wipes, Spray and Household Cleaner:

What a pleasure to clean without the toxic fumes and ingredients from other household cleaning products. What a blessing for those who are chemically sensitive! Sally

I suspect most of our cleaning products are going to be replaced with Thieves. I love knowing that not only do the items I'm cleaning LOOK clean, they are also sanitized! Julie D.

RADIANT HEALTH NEWS

Millions of Great Reasons to use Thieves Wipes and Spray at Work

A University of Arizona study found that office desks harbor 400 times more bacteria than the average toilet seat! The highest bacteria levels were found on telephones, desks, water fountain handles, microwave

oven door handles, and computer keyboards. Even a small area on a desk can harbor millions of bacteria, which can cause illness, according to the study.

What can you do? **Spritz your work area with Thieves Spray and wipe, or use a handy Thieves Wipes every day.** In the study, office workers who used a disinfectant to clean their desks, telephones, and computers once per day reduced bacteria levels by **99.9%** in two days.¹

That kind of health insurance is worth adding to your autoship order!

A few more ways to invite the **Thieves Family of Products** to your fall cleaning:

- ♦ Eliminate airborne bacteria by diffusing Thieves in your home and office. Diffuse only 10 minutes a.m. and p.m.
- ♦ Keep a bar of Thieves soap in the mud room or kitchen for effective hand-washing.

¹Study finds high levels of bacteria in personal office space. AORN Journal. May, 2002.

What's Lemon Essential Oil Doing in the Thieves Family of Products?

Many of us love **Lemon** for cleaning our homes ! It's tough on germs, too.

- ♦ Lemon essential oil will freshen and sanitize your dish sponge or cloth.
- ♦ A few drops of Lemon will make your wood furniture glow
- ♦ Add Lemon to the water in your vaporizer or humidifier to sweeten the air and combat germs.
- ♦ Laundry smells fantastic when Lemon is added to the wash water.
